

NEWS ALERT

FP 26mm complements APEM's range of large illuminated pushbuttons.

This new 26mm pushbutton keeps the major benefits of the FP range : design & robustness.

Engineered to suit integrated designs, the FP range is dedicated to applications in automotive & transport vehicles (bus, trucks...).

With its **large diameter** & its **fully illuminated plunger**, our FP 26mm is suited for dashboard designs while remaining highly visible.

The FP 26mm is easy & rapid to install thanks to its **snap-in mounting with metal clips**.

The range of FP large illuminated pushbuttons FP also includes :

A 30mm model, with gloss finish, snap-in and threaded bushing versions, chrome plated finish available.

A 24mm model, available in threaded bushing version, sealed to IP69k.
